

From Founder's Desk:

Welcome to Fortune Butterfly Senior

Secondary School

Founder & President

Fortune Butterfly Senior Secondary School

"If a poor boy cannot go to education, education must go to him."

-Swami Vivekananda

The above quote motivates me a lot. To make quality education available to students I embarked on a journey by starting FORTUNE BUTTERFLY SENIOR SECONDARY SCHOOL in FORTUNE BUTTERFLY CITY. It is located 2 km away from Srisailam Highway Kadthal (V&M). The journey commenced in June 2012 and the saga moves on. We crossed lot of milestones, notably being affiliated to CBSE up to Grade X in 2014. A feather in the cap was added when we upgraded ourselves to Grade XII CBSE in 2016. Five batches of Grade X & three batches of Grade XII have graduated from this school with flying colours.

"Our vision is to make each & every child as the Global Citizen and in providing True Quality Education."

-Swami Vivekananda

To ensure this we provide world class facilities in the form of Science, (Physics, Chemistry, Biology), Mathematics & Atal Tinkering Labs, Indoor & Outdoor Sports, Yoga & Library, Digital Classroom to name a few.

Ours seers have rightly said in Rig Veda

'Aano bhadra krtavo yantu vishwatah'

(meaning: Let noble thoughts come to me from all directions).

This is a Vedic mantra which connects the entire world beyond religion, caste, creed racial prejudices, selfishness & brutality. This is the theme to become a Global Citizen.

My message to the Principal, Staff, students and esteemed parents of FBSSS is to understand education in true context. It can be summed by the following quote:-

"What is education? Is it book learning? No. Is it diverse knowledge? Not even that. The training by which the current and expression of will are brought under control and become fruitful is called education."

-Swami Vivekananda

From Co-Founder's Desk:

Character is the backbone of Education. A person with a good character can achieve anything. Nothing is impossible to a trained mind. We at Fortune Butterfly School reach different sections of society and I am proud to make the education available at grass root levels.

Alma mater is special in every child's life .It is the foundation on which I can say our life revolves .It is very hard to forget one's alma mater. We make it remarkable by touching different facets of life. Able guidance and timely support coupled with lots of opportunities bring out the best in an individual.

In today's world the challenges are many bountiful. New skills are required to cope up with 21st century challenges. We bring into play education technology and make it a part of learning process. We also keep abreast by providing training to the faculties as per CBSE recommendations. Our facilitators' also attend the seminar, workshops, capacity building programmes etc, to make them adept in their chosen fields.

To achieve our goal of True quality education, we provide good atmosphere so that each child feels that school is a better place than any other place.

Wish You Happy Learning at Fortune Butterfly Senior Secondary School

From the Principal's Desk:

I am happy to be associated with Fortune Butterfly Senior Secondary School since April 2014. As a team leader my job is to provide good atmosphere and learning opportunities to all associated with teaching and learning process. I strongly believe in inspiring the young learners to achieve their goals.

I believe hard work (smart work) leads to success, joy & inspiration. It may seem to be a slow process but it is steady. Over the years the school has grown to great heights. We use innovative practices like no bell, Chocolate free premises, greeting in a formal way- Namaste emphasizing "Culture is Indian, medium is English", fistful of rice on Saturdays which is donated to an orphanage and others to develop all round personality of the students.

We are emerging as a pacesetter with respect to quality education in the Rural North Telangana. I trust the quotation "The best is yet to come". I hope to achieve a lot in the coming years with the cooperation of stakeholders.

Our Facilitators:

We have a strong teaching faculty of 82 members to hone the talent of students. They possess requisite skills to equip the child to face the challenges of evolving society. Their role is not limited to classroom only. It starts with the child's entry into the campus, observing from behavioural changes and correcting them for pro-social behaviour.

We believe in diverse teaching methods to bring out the best in a student. Healthy interaction between staff members and students makes the campus a best place for holistic development. Our staff is sensitive, maintain accurate records and take into account individual differences to groom them well. They come from diverse backgrounds with some experience behind their shoulders.

Some are so versatile that they mentor students as well as teachers to excel in life. Association with them changes the course of life for a better understanding.
